in elicitron/  🐙 ebcitron

## SUMMARY

Full Stack Web Developer with the passion and cognitive aptitude to dissect and analyze yesterday's tech to structure and innovate the solutions of tomorrow. Started a business at a young age, managing both Tech and Sales, purchasing broken and used electronics, to tinker, modify, and repair to resell for serious profit. This experience of success in hardware and finance, forged by trial and error manifested a new mentality of limitless personal capability and newfound determination. This led to the realization that software is as fascinating and manipulable as hardware, leading to a deep passion for manipulating electrons to better humanity.

## SKILLS

| ASSORTED | FRONT END | BACK END |
|---|---|---|
| Python | HTML5 | Node.js |

## EMPLOYMENT

**CyberSpace MarketPlace**
Owner, Engineer, and Salesman · 2009 to 2014, 2009 to 2014
- Purchased broken and used electronics for modification and repair
- Cracked open hardware to analyze inner workings and debug by testing electrical components for issues and making subsequent repairs
- Sold unique modifications on common devices such as hacked gaming controllers, installing custom firmware, and aftermarket hardware mods
- Marketed unique colored iPhone housing to peers who desire individuality in a world often uncomfortably uniform

**Germ Free Travel**
Remote
Webmaster · Apr. 2020 to Current
- In charge of designing, building, and maintaining Germ Free Travel's web-store
- Building an online presence enhancing their brand
- Optimizing search results and traffic with SEO tools

**Lambda School**
Remote
Team Lead · Sept. 2019 to Dec. 2019
- Managed a team of 8 students as they worked on Javascript and React projects
- Tasked with guiding and tutoring each student, ensuring they had everything necessary to succeed
- Held daily standup meetings to review the teams progress and answer any questions they had
- Reviewed their GitHub repositories and left significant beneficial comments and suggestions
- Met with each student individually to go over their progress and understanding of the material, further tutoring them when necessary
